HKIAS Symposium on Advances in Neuroscience
25 – 26 March 2019
Senate Room, 19/F, Lau Ming Wai Academic Building
City University of Hong Kong

Session 1
Molecular Regulation of Neural Circuits
Masashi Yanagisawa
International Institute for Integrative Sleep Medicine,
University of Tsukuba, Japan
Michael Nusbaum
Department of Neuroscience, Perelman School of Medicine,
University of Pennsylvania, Philadelphia, PA, USA
Tibor Harkany
Department of Molecular Neurosciences, Medical University of Vienna, Austria

Session 2
Integrative Approaches in Neuroscience
Hiroki Ueda
University of Tokyo & Center for Biosystems Dynamics Research, RIKEN, Tokyo, Japan

Session 3
Memory, Ageing and Dementia
Jufang He
Department of Biomedical Sciences, City University of Hong Kong
Nancy Ip
State Key Laboratory of Molecular Neurosciences, The Hong Kong University of Science and Technology
Carol Barnes
Evelyn F. McKnight Brain Institute, University of Arizona, Tucson, AZ, USA
Tara Spires-Jones
Centre for Discovery Brain Sciences, University of Edinburgh, UK

Session 4
Sensation, Cognition and Language
Jan Schnupp
Department of Biomedical Sciences, City University of Hong Kong
Sophie Scott
Institute of Cognitive Neuroscience, University College London, UK

Organizers

Colin Blakemore
Hong Kong Institute for Advanced Study, City University of Hong Kong
Jufang He
Department of Biomedical Sciences, City University of Hong Kong
Tomas Hökfelt
Hong Kong Institute for Advanced Study, City University of Hong Kong
